

## Driving Directions – Center for Systems Imaging (CSI)

Your visit is located at the Center for Systems Imaging (CSI), **AROUND THE BACK** of the Health Sciences Research Building on the Emory University Campus. The street address of the building is 1750 Haygood Drive NE, Atlanta, GA 30307 but please note that this address refers to the front of the building. From Haygood Drive, please drive around the back of the building to park and enter.

Click [here](#) to see the location on Google maps.

**Parking Information:** Free parking is available for your visit right across from the entrance to the Center for Systems Imaging. Follow directions below to locate free parking spots. There may be a parking cone in those spots; please feel free to move them to park. We will provide you with a parking pass to display in your car windshield.

### Coming from CLIFTON ROAD:

- Turn onto Haygood Drive
- You will see marble skybridge ahead of you
- Look **LEFT** for blue signs reading:
  - 'Center for Systems Imaging Core'
  - 'Health Sciences Research Building'
- TURN **LEFT** immediately **BEFORE** blue signs
- Drive **AROUND THE BACK** of the building
- Park in first spots on left
  - Parking signs are labeled 'CSI Clinical Research Visitors'
- Enter through glass doors across from parking spots
  - Entrance is labeled 'Center for Systems Imaging Core'

**Coming from NORTH DECATUR ROAD:**

- Turn onto Haygood Drive and drive past the high school
- Drive under marble bridge
- Pass Health Sciences Research Building on right
- Look RIGHT for blue signs reading:
  - 'Center for Systems Imaging Core'
  - 'Health Sciences Research Building'
- TURN **RIGHT** immediately **AFTER** blue signs
- Drive **AROUND THE BACK** of the building
- Park in first spots on left
  - Parking signs are labeled 'CSI Clinical Research Visitors'
- Enter through glass doors across from parking spots
  - Entrance is labeled 'Center for Systems Imaging Core'

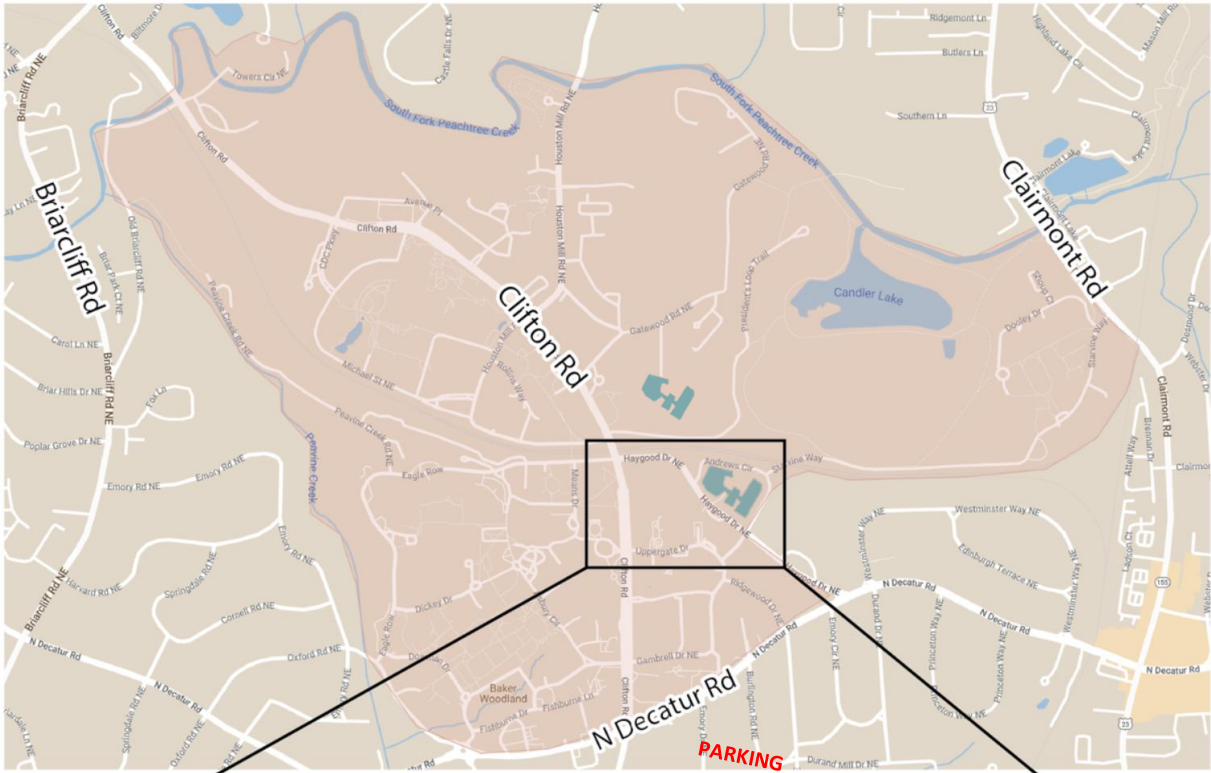

The parking spots look like this. Inset shows sign displayed at parking spots.

The entrance to the Center for Systems Imaging looks like this:
